Power On BESS — 59 MW / 120 MWh, Plot 26, Psevdas, Larnaca, Cyprus

Client: H.E.S.S. Hybrid Energy Storage Systems Ltd

Offer ref: LCY-HESS-PSEVDAS-BOP

Issued by: Lighthief Cyprus Ltd (HE 477423)

Date: 28 July 2026

Validity: 30 days

Status: Initial budgetary offer **FOR ISSUE**

1. Scope — Balance of Plant (BESS island)

- Container & skid foundations (24 × 20ft bases + 6 × 40ft skid bases), reinforced concrete to seismic design
- BESS-yard civil works: site access, hardstanding, grading, drainage, perimeter fencing & gates
- DC & LV cabling within the BESS array; array earthing (interconnected with the station earthing grid)
- Energy Management System (EMS/SCADA) for BESS monitoring & control, and interface to the substation RTU
- Battery-container water fire-suppression interface (DN65) tie-ins to the site fire-water main
- Installation, cabling terminations and commissioning support on the BESS side

Balance of Plant — BESS side (ex-VAT)

€ 2,118,000

2. Terms

Currency	EUR, ex-VAT (Cyprus 19%, reclaimable), ex duties/fees
Validity	30 days
Schedule	Runs in parallel with BESS manufacturing; foundations ready ahead of delivery
Payment	Lighthief standard EPC milestones — to be set in the works agreement
Contracting entity	Lighthief Cyprus Ltd

Excludes: the BESS equipment (see Offer 1 of 3 — BESS), the 132/33 kV substation and the site fire-water system (see Offer 3 of 3 — TS), VAT, duties and fees. This is an initial budgetary offer; the works price is a budgetary allowance pending the local civil bill of quantities. Compliance, exclusions and assumptions per the shared Offer Annexes (A & B).
