

05/02/2026

Dear all,

As I mentioned during your visit to Cyprus, our company is actively developing PV parks in Cyprus, Georgia, and Spain, with expansion plans in Greece, Poland, Bulgaria, and Italy, where we are currently in the process of acquiring RTB projects or developing our own pipeline.

In addition, our company is one of the ten licensed electricity supply companies in Cyprus, serving a wide portfolio of prestigious clients, including banks, supermarket chains, industrial facilities, hotels, and other major consumers.

Due to the isolated nature of the Cypriot electricity system and the overall weakness of the grid, we are experiencing significant curtailments — in some cases reaching up to 50% on certain days. Furthermore, under the new regulatory framework, all new PV developments must include a BESS in order to obtain a license. For these reasons, we are planning to integrate BESS solutions into our existing and upcoming projects. Below, I am attaching the list of our projects in Cyprus for your reference.

No	Project	PV Park MWp	Type	PV park Status	BESS output power MW	BESS MWh	No of containers.To be verified by the supplier	approx. date of operation	NOTE
1	Greendorado plots 425,421,30,27,12,193	1.8	Fixed / bifacial	under licensing	1.25	5	2	Q3 -2027	
2	Agios Sozomenos plots 159/160 Agrivoltaic	6.1	Fixed / bifacial	under licensing	6	25	7	Q4-2027	
3	Greendorado 193,417,418 Agrivoltaic	0.75	Fixed / bifacial	under licensing	0.75	3	2	Q3-20 28	
4	Dianary 1 extension	2.6+0.6=3.2	Fixed /monofacial	2.6MWp in operation	2.5	10	3	Q1 -2027	FLEXIBLE CONNECTION
5	Dianary 2 plot48	1.4	Fixed / bifacial	RTB	2.5	10	3	Q2-2027	FLEXIBLE CONNECTION
6	Dianary 2 plot15,157	4.99	Fixed / bifacial	RTB	8	35	11	Q2 -2027	FLEXIBLE CONNECTION
7	Polemi plot 1494 Agrivoltaic	1.8	Fixed / bifacial	under licensing	1.25	10	2	Q2-2029	
8	Potamia plot 151 Agrivoltaic	1.57	Fixed / bifacial	under licensing	1.25	10	2	Q2-2029	
9	Potamia plot 208 Agrivoltaic	4.63	Fixed / bifacial	under licensing	4.5	20	6	Q3-20 23	
10	Easy Power 1	5.58	Trackers /bifacial	in operation	5	10	3		
11	Easy Power 2	4.69	Trackers / bifacial	in operation	4.5	10	3		
12	Renertetic	7.5	Fixed / bifacial	under construction	5	10	3	Q4-2026	
13	Renertetic 2	2.4	Fixed / bifacial	under licensing	2.4	10	3	Q2-2030	
14	Easy Power 3	7.94	Fixed / bifacial	under construction	5	10	3	Q2-2026	
15	Easy Power 4	1.83	Fixed / bifacial	under construction	1.8	8	3	Q2-2026	
16	Greendorado	2.1	Fixed / bifacial	under licensing	1.8	8	3	Q2-2027	
17	Waneron FIT scheme	3	Fixed / bifacial	in operation	3	11.28	3	Q4-2026	
18	Solarity	6	Fixed / bifacial	under licensing	5	10	3	Q2-2030	
19	Solartech 3 EXTENSION	2.5+0.5	Fixed / bifacial	2.5 MWp in operation	2.5	10	3	Q4 26	FLEXIBLE CONNECTION

Please note that the BESS capacity for each PV park can be adjusted based on your proposed solutions and technical recommendations.

-  (+357) 22 278 877

-  www.abio.com.cy
-  Larnakos 62, 2101 Aglantzia Nicosia, Cyprus

I am also attaching the single-line diagrams for the existing PV parks currently in operation, which are considered our most urgent projects. We kindly request that you provide us with your offer at least for the following sites: Easy Power 1, Easy Power 2, Dianary 1, Solartech 3, and Waneron.

Please note that Waneron operates under the Feed-in-Tariff scheme, making it our highest-priority project due to our contractual obligations with the Government.

If you require any additional information or documentation, please feel free to let me know.

Kind Regards,

Iacovos Charalambous
